

Bouvard Coast Care Group ~ Gumnut Possum Bridge

5pm Saturday 28th
April 2018

Invitation to the Opening

The Western Ringtail Possum is currently on the Critically Endangered list and it is estimated that the species may go extinct within 20 years if nothing is done to save it. Clearing & construction are the main issues that face the Ringtail leading to fragmentation of the possums natural habitat.

Bouvard Coast Care Group with the help of grants from Peel Harvey Catchment Council, the City of Mandurah & other contributions, have finished building Mandurah's first Possum Bridge aimed at reconnecting habitat & saving this important species for the future.

Please come and join us for our opening ceremony, after the ceremony, we will be serving soup & rolls followed, after dark, by Possum Spotting* in small groups (children welcome & encouraged to join in)

* Bring covered footwear & a torch for Possum Spotting

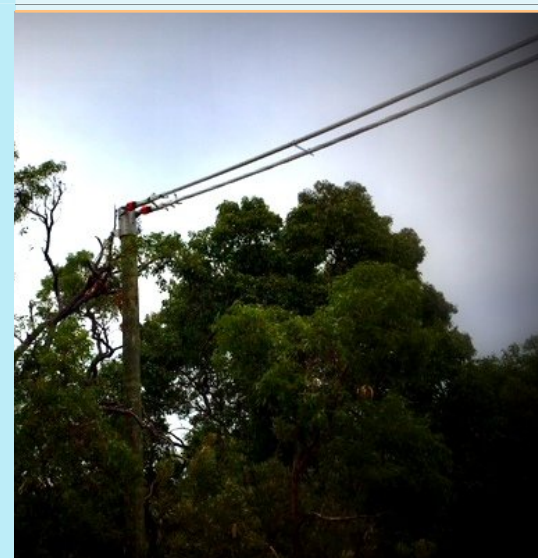

Gumnut Possum Bridge

Address: The Gumnut Possum Bridge, Jinatong Loop, Dawesville
