## Community Planting

The 2500 plants used on Saturdays Community Planting, were a small part of the thousands of seedlings grown by Mandurah Council as part of their coast care operation.

Many thanks to Jess & Jenna from the Mandurah Shire who provided the seedlings and helped us with the planting.

We very much look forward to seeing how the plants planted with the white planting crystals fare this summer!

## 2500 plants put in over 3 hours of Community Planting - A great day out for all the family!

### Making a Difference

Many thanks to the 25 volunteers that turned up on Saturday 30th July with a special thank you to the kids who joined in too. Together we planted 2,500 plants which has filled two thirds of the bowl which is essentially the last planting area to be completed before the first lookout. It was a fabulous job and hopefully everyone enjoyed the relaxed atmosphere and the feel good factor, not too mention the morning tea & cakes! We were also lucky enough to be blessed with good weather for the planters which was then followed by fabulous rain on Sunday for all the plants! Also a special thank you to the Alcoans that did their own pre-planting of 400 plants in the bowl back in June.

### Certificates for the kids....

We provide certificates for all of our younger generation participants - if you were there and would like a certificate please email your full name to [mel@westcountryweb.com.au](mailto:mel@westcountryweb.com.au)!

what3words is a unique combination of just 3 words that identifies a 3mx3m square, anywhere on the planet. It's far more accurate than a postal address and it's much easier to remember, use and share than a set of coordinates.

We'll be using this to make it easier for you to find future planting locations, find out more at [what3words.com](http://what3words.com).
